STOCKTAKING YOU CAN REALLY COUNT ON

Our extensive network of well trained teams and advanced systems allows us to provide a quality, efficient and independent stocktaking service.

Stocktaking is generally a stressful process and usually takes away attention from important aspects of the business. Our professional service will allow you to entrust your stocktaking process into our hands so that you may concentrate on other core business aspects.

Using the latest in scanner technology, and a proprietary, standalone software package, we strive to provide the stock taking solution that works for you. Our stocktaking footprint covers the whole of Zimbabwe and we have the capacity to deliver simultaneous stock takes in multiple stores nationally.

Benefits to using Fabmark Stocktaking Solution

- Faster, more efficient stock takes: save you from closing your store and losing trade.
- Our in-house hardware and software means that our direct costs are recovered across multiple clients, resulting in overall reduced costs for you the client.
- Our independent stocktake solution provides reports that are tailor made to suite your business and decision making needs.
- We provide a report highlighting areas that needs attention so as to improve profitability after each and every stock count.

" Stocktaking is a vital aspect of any business. We understand how important it is to provide a quality service..."

OUR SERVICES

Stocktaking is a vital aspect of any business. Fabmark understands how important it is to provide a quality stocktake. In our endeavour to provide a first class service to all our clients we have invested in training of our stock takers and a fully functional stocktaking system. We give our client a choice from either a full package stock solution, labour solution and or technology solution.

Fabmark provides the stocktaking solutions on monthly, weekly, annual basis depending on the needs of the clients.

- Full Stocktaking Solution

This is a combination of stocktaking system, labour solution and technology to provide a quality stocktake that helps in making proper decisions.

- Labour Solution

We provide teams of well trained stocktakers to improve the efficiency of your stocktaking process. Our stock takers are professional and understand the importance of a quality stocktake.

- Technology

Technology has become the back-bone of most successful business and the stocktaking process can not be left out. We provide the latest bar code scanning equipment and turnkey stocktaking software.

" Fabmark provides a stock taking solution that works for you. Ranging from the full package to our technology only or labour only packages:."

OUR SECTORS

Fabmark Stocktake solution is centered on providing a service that meet the client needs beyond just counting stock. We understand that each sector has its own needs, so we take time to invest in understanding the sector hence provide a quality stocktake solution.

We provide stocktaking solution to the following sectors:

Warehouses

Supermarkets & Retail outlets

Clothing & Textile

Pharmacy

Manufacturing

Hardware
